- Description of main intervention strategies
- Partnership with other organisations
- Process evaluation
- Outcome evaluation

Target group(s):

Professionals working with immigrants

Topic or discipline:

,Social science

Short Description

We have developed a Personal Development Plan for Intercultural Competence Training but it is only produced in Finnish.

Why is this an interesting case? Is there any formal recognition of this case as a good practice? Why do you think this sample should be taken into consideration?

Important lessons learned about course design.
